DGIST (Daegu Gyeongbuk Institute of Science & Technology) 
Department of Robotics Engineering invites applicants for full-time, 
tenure track faculty positions.

DGIST is a growing institute dedicated to science and technology research and education in South Korea, where competent faculty, researchers and students seek to discover new and creative convergence knowledge and technologies. Founded by the Korean government, DGIST opened its graduate and undergraduate school in 2011 and 2014, respectively, and has been offering Bachelor’s, Master’s, and Doctoral Degree programs, continually diversifying its programs in the field of science and engineering. The number of students has been rapidly growing and it is expected to have more than 2,000 students by 2020. DGIST is pursuing international recognition with its innovative education system and many scientific luminaries hosted over the years.

Candidates should hold a Ph.D., and have a potential to be at world-leading position in both teaching and research. Salary, rank, and other compensations are commensurate with qualifications and experiences. Priority will be given to the applicants who have developed strong research career in the following fields.

All related areas to rehabilitation robot, surgical robot, biomedical engineering, mechatronics and general robotics:

- Control, mechanism design, actuator, haptics, autonomous system
- Artificial intelligence, machine learning, deep learning, motion planning
- MEMS, nano technology, microrobot, neural engineering, bio-inspired system
- Software design, signal processing, computer vision, medical imaging, image-guided surgery, remote surgery
- Soft robotics, human-robot interaction, brain-machine interface, walking assistance, personal mobility
- Electronic system: sensor, actuator, transducers, implantable & wearable device

Interested candidates should submit an application (form available at the recruitment website) with five professional references (e.g. thesis) electronically at our faculty recruitment page (http://faculty.dgist.ac.kr) from 14 October 2019 to 18:00 pm on 01 November 2019 (Korean Local Time)

If you have any questions, please contact to the recruitment manager at below contacts.
Tel : +82 (53) 785-5115, 5114, 5110
E-mail : faculty@dgist.ac.kr

Only shortlisted candidates will be contacted. All positions will remain open until filled. For more information of DGIST, please visit our website at https://robot.dgist.ac.kr/?lang=en
